DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hsu et al. It is obvious to one of ordinary skill in the art, at the time the invention was made, that the system and method for classifying cardiac complexes based on cardiac information derived from two or cardiac signals of Hsu et al achieve the same claimed results as the claimed invention.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
